PROFESSIONAL SUMMARY

IT professional with hands-on experience in web development, technical support, and data encoding. Skilled in building functional web applications using HTML, CSS, JavaScript, and Node.js through an AI-assisted development workflow, with a solid foundation in hardware/software troubleshooting and accurate data management. Detail-oriented and adaptable, with a strong drive to apply technical and problem-solving skills in a professional IT or web development role.

TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, Node.js (AI-assisted development)

Projects: Portfolio Website, Weather Dashboard, Accounting Website

IT Skills: Technical Support, Laptop/Hardware Troubleshooting, Basic Software & Hardware Troubleshooting, Office Technology Programs, Social Media Platforms

Core Competencies: Problem Solving, Time Management, Creativity

WORK EXPERIENCE

Technical Support / Web Developer — MOHS

2025

- Provided technical support and troubleshoot laptop hardware and software issues for staff and clients.
- Developed an accounting website through an AI-assisted development workflow.
- Diagnosed and resolved recurring technical issues to minimize downtime and improve system reliability.

Data Encoder — PBcom Tower - IOS

2023 – 2025

- Ensured accurate processing and tracking of incoming and outgoing funds.
- Managed payouts and monitored transaction flow to prevent discrepancies.
- Maintained high data integrity standards in a fast-paced financial environment.

PROJECTS

Portfolio Website

- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Built using HTML, CSS, and JavaScript with AI-assisted development workflow.

Weather Dashboard

- Developed an interactive weather dashboard application using JavaScript and Node.js.
- Integrated real-time weather data display and responsive UI components.

Accounting Website

- Built an accounting website for MOHS using an AI-assisted development workflow to streamline financial record-keeping.

Capstone Project: "PAWS PATROL: A SMART IoT AND MOBILE APP REAL-TIME GPS TRACKER FOR PETS"

- Designed and developed an IoT-based real-time GPS tracking system integrated with a mobile application for monitoring pet location and safety.
- Combined hardware (IoT GPS module) and software (mobile app) components to deliver real-time location updates and tracking history.

CERTIFICATIONS

- Become a Full-Stack Web Developer with Just ONE Course — HTML, CSS, JavaScript, Node, React, PostgreSQL, Web3 and DApps (In Progress — 127/386 complete)
- Responsive Web Design Certification (In Progress)

EDUCATION

Bachelor of Science in Information Technology

Pateros Technological College | 2022 – 2026

Senior High School – TechVoc Track

MCA Montessori School | 2020 – 2022
